

PRESS RELEASE

Central Air Transport Services fleet expands

With the positive and successful flow of enquiries and bookings in a post COVID environment, we (Central Air Transport Services) are thrilled to announce the new addition of a Beechcraft King Air 200 to our fleet.

There is no doubt that this beautiful pressurised twin engine she will not only allow us to expand our fleet but will also allow us to ensure better quality service by providing our clients with the style, comfort and speed.

The aircraft will be operated by our trained and professional crew on a first come first serve bases. For your hassle free and executive flights in, around Zimbabwe and Southern Africa's accessible/serviceable airstrips and Airports contact our reservations team.
